

PEDIATRIC

Lower Profile

kiddieGAIT™
TRANSFORMATION*

More gently contoured "wings"
 • Fits comfortably to the anatomy
 • Less surface area for breakage

*Youth sizes only

D-ring straps

← "Feels" more secure

← Reduces potential to flex wings forward to reduce risk of cracking

ALLIGATOR TYPE ATTACHMENT

Easily applied for right or left hand "pull"

comfortKIT™

Designed for the patient that requires added cushioning and a more intimate fit due to the shape of the tibia, skin condition or activity level.

More dynamic solutions

SIZE

kiddieROCKER™

KiddieROCKER™ is the newest addition to the ToeOFF Family of Products. Developed for your pediatric population with more involved pathology than only footdrop.

New addition

Just like KiddieGAIT, KiddieROCKER offers graded dynamics by size but with extra rigidity for enhanced balance and posture control.

XL kiddieGAIT™

The addition of this size allows a smooth transition from our "Kiddie" sizes to the adult ToeOFF Extra Small.

New size

softSHELL™

SoftSHELL combines the soft interface system of SoftKIT with a fun-print textile cover; made just for kids!
