## dynaFLANGE<sup>®</sup> ORTHOTIC SUPPORTS

### State-of-the-art prefabricated orthotics

Did you know that the earliest foot orthotics date back at least 2,000 years when layers of wool were placed inside sandals to relieve foot fatigue? Or that the first recorded use of an arch support dates to 1865?

Since then, there have been many advances in over-the-counter foot orthotics, but innovation is now defined by the revolutionary Apex dynaFLANGE<sup>®</sup>.

The patented rearfoot flange flexes at three points during heel strike to minimize the deforming effects of impact. dynaFLANGE<sup>®</sup> provides exceptional shock absorption then releases that stored energy with each step and stride to dynamically reposition the foot for optimal propulsion.

*Feel the Science<sup>™</sup>. Feel the Power. dynaFlange<sup>®</sup>.*
