

Apis Footwear Co. Takes The Lead In Therapeutic Shoes.

Apis Footwear Announces Manufacturing of New Athletic and Casual Shoes for Men, Women and Children

LOS ANGELES-- Apis Footwear, parent company of brand name shoes MTEMEY& BOXER DOGS, has announced that starting March 1, 2007 they will be manufacturing Answer2 athletic and casual shoe line.

Apis Footwear Co., which is known for their superior off the shelf diabetic and therapeutic shoe line, will be offering athletic, footwear for adults and children.

Answer2 is a unique additional depth shoe that works wonderfully with AFOs and KAFOs. The children's line comes in 2 widths and is made of genuine leathers.

Just like Most of Apis Footwear lines this line also is Medicare approved.

"We are always coming up with some great items to save our customers money and time," said Eddie Hyer, Apis Footwear Co.

"We were excited to be the first to introduce an off the shelf shoe for Charcot foot.

The first to have an off the shelf shoe for Edema and we are proud of our no minimum order policy."

More and more O&P companies are getting on board with Apis Footwear because of their awesome custom shoe packages and wonderful person to person customer service. Apis Footwear prides itself with having more widths, sizes, and over all stylish shoes.

This decade old company even offers their customers with custom made inserts, blanks and modifications for each brand sold.

"We believe that the O&P world can see the value in providing their patients with an affordable, yet, quality made therapeutic and orthopedic shoe."

With the population increasing in diabetes, charcot foot, edema and those needing orthotics, Apis Footwear is the company to order from.

More and More O&P companies are getting on board with APIS FOOTWEAR CO.

APIS PROVIDING THE BEST COST AND SERVICE FOR CUSTOM MADE SHOES.

After listening to many customers about other custom shoe services, Apis took the lead and started to make custom shoes from its factories with quality and styles.

Apis was pleased to announce in its 2006 evaluation meeting that they held

over an 80% first time made success rate. This is a huge success rate for custom made shoes.

"I feel our customer's enjoy the one time flat cost for shoes and inserts," said Tom Bymin, Apis footwear. "They can add any modifications

they need , any color, and we will guarantee each shoe made to be the correct size" Apis has a 4 week turn around time and will keep the original cast for 3 years for future orders.

Another fantastic service offered by Apis Footwear.
