## Maximum Motion Restriction and Support in an LSO

### Code L0639 Approved

The **NEW** Vista® 639 LSO 4 Panel is Aspen's most substantial LSO, offering multiple layers of support. With coverage from the symphysis pubis to the xiphoid process coupled with overlapping lateral and anterior panels, this brace provides maximum motion restriction in all three planes of motion.

- **Unparalleled Motion Restriction**  
Superior flexion and lateral control for maximum support
- **Modular by Design**  
Steps down to the Vista 637, the Vista 631 and the Vista 627 to support patient recovery
- **One Size Adjustable**  
The right size is always on hand, minimizing inventory requirements

To place an order or for more information, contact your local
