The QuikDraw™ by Aspen is the platform component for the newest innovation in spinal bracing. When partnered with a rigid anterior panel, the QuikDraw™ will help lead to immediate and lasting pain relief, enhancing the progression of patient care.

Compression

Combining the compression from the QuikDraw™ RAP and the rigid Contour™ Back Panel, the Contour™ LSO provides effective support in the lumbar region.

Support

Adding the (New) Contour TLSO™ components allows for additional motion restriction for the thoracic and lumbar regions of the spine.

Comfort

Whether motion restriction or pain relief is desired, the QuikDraw™ Bracing System creates a simple, effective, comfortable and economic option for every practitioner.

NEW

12" Back Panel Now Available
