

Enhanced Comfort. B.O.S.S TLSO with Articulating Pelvic Section

We have added two new models to our **Becker Orthopedic Spinal System (B.O.S.S)**. This series of prefabricated, modular, hyperextension TLSO's can now offer enhanced comfort to your patients with the addition of an articulating, spring loaded, pelvic section.

The pelvic section of the orthosis is now free to move with your patient and their changes in posture allowing greater comfort in all positions.

L-31A

Features:

- Articulating, spring-loaded, pelvic section
- Adjustable lateral uprights with serrated discs for easy angular adjustments
- Flexible back pad for added patient comfort
- Swivel sternal pad
