

PACIFIC™ ADJUSTABLE COLLAR

Developed in collaboration with Max Lerman, CO, the **Pacific Adjustable Collar** is designed to afford effective control and limitations of cervical spine motion: flexion/extension, rotation and lateral flexion. The collar is adjustable in height within two predetermined ranges, and can be securely and easily adjusted by the orthotist to ensure optimum alignment and patient comfort.

- Available in two adjustable adult sizes
- Guaranteed to reduce inventory levels
- Low-density polyethylene shells provide stability and flexibility
- Thick, open cell foam liners provide comfort and breathability
- Easily adjusted to ensure optimum alignment and patient comfort

Model Number	Size	Height Adjustment
C-14A-S-M	Adult Small - Medium	2-1/4" - 3-3/4"
C-14A-M-L	Adult Medium - Large	3-1/4" - 5-1/4"
