MVP® Contour OTS

The MVP® Contour is a versatile, low-profile aluminum brace incorporating Össur's proven technology that is engineered to capture the tibia, securing the brace in the proper position on the leg. This new addition to their comprehensive line of ligament knee bracing can be easily tailored to achieve a customized fit and is suitable for a broad range of patients and activity levels. #B-213

New OCSI Products

OCSI's recently expanded line of pediatric braces offers multiple orthotic therapy treatment options for your pediatric patients. SoftPro™ Pediatric Orthotics include "bend to fit" hands, Static Gel elbows (pictured here) and knees, and In-Bed AFO's. SoftPro™ Pediatric Orthotics provide static or progressive extension therapy to maintain or conservatively reverse pediatric contractures. Fisted hands or difficult knee contractures? AirPro™ Air Graduate Hand and COKO Knee provide safe and gentle stretch to reverse even the most difficult contractures with ease of donning and doffing. Children with spasticity can be especially challenging to obtain a good comfortable therapeutic orthotic fit. A full line of DynaPro™ Orthotics provides static-dynamic neurotherapy for children with spasticity. One source, multiple treatment options. Request an OCSI Pediatric Orthotic product brochure today!

Gel Suspension Knee Sleeve

The R&B Medical Gel Suspension Knee Sleeve combines high performance, skin-friendly gel with a secure seal to hold the prosthesis in place. The 3mm thickness, low profile seam and stretch of the fabric allow for easy flexion of the knee without adding bulk. A superior bond between the gel and fabric limits delaminating and the fabric slides easily against itself to allow for easy donning. The sleeve will cold form to the patient's limb for a custom fit making your patient more comfortable through full range of motion. #10-RBW80

Dual Bladder Vacuum Station

The Trautman Dual Bladder Vacuum Station can be used as either a dual bladder or single bladder vacuum system. The dual bladder configuration allows for better mold preservation during vacuum forming and improved surface quality of the molded product. Exterior dimension: 24" x 24". #227730

Alpha® Silicone Liner

WillowWood's new platinum-cured silicone liner is medical grade and designed for a comfortable fit. The silicone features a unique blend of Vitamin E and skin conditioners for a non-greasy and non-tacky surface. The liner's one-way stretch Select fabric controls pistoning without using a distal matrix. Flared shape contours to a limb's surface for an intimate fit and a flexible knee panel provides enhanced knee flexion. Retrofits with thermoplastic elastomer liners with a progressive gel style. Available in locking and cushion styles.

SlingShot 2

The SlingShot 2 from Breg features a comfortable, breathable Airmesh® sling and a 15° abduction pillow. Quick release shoulder and waist strap buckles make this product easy to apply. Includes exercise ball to stimulate circulation. Universal design fits left or right. #0850x

Wave Comfort Foot System™

Following in the footsteps of Fillauer's popular Wave Sport is the new Wave Comfort Foot System, bringing the same exceptional level of comfort to the low to moderate activity user. The unique tri-spring design elements work in concert to provide seamless transition and stable progression from heel-strike to toe-off. The coupled springs react in a compliant manner that promotes a supple feel while maintaining the dynamic response expected in carbon composite feet. The novel wave spring and variable durometer heel bumpers enhance stability at heel strike through shock absorption and plantar-flexion as the wave spring flexes and extends. The smooth action of the heel rocker combined with the stable dynamics of the forefoot insure a "wave of comfort" from heel to toe. #135-10

Ventura™

The new Ventura™ Spinal Brace from Orthomerica is easy to fit and simple for the patient to don and doff. The orthosis provides controlled levels of stability by featuring easily removable rigid plastic components, making it ideal throughout rehabilitation. Tall or short (pictured here). #326x

Nabtesco Knees Exclusively from Cascade

Cascade now offers the Nabtesco family of knees including the Advanced Pneumatic Knee, Hybrid Knee, 4-Bar Intelligent Knee, Single Axis Intelligent Knee and 6-Bar Hydraulic Knee. For more information and a complete list of features specific to each knee, contact Cascade Customer Service.

Vission 3-Strap LSO

The Vission 3-Strap LSO offers compressive support for effective pain relief of the low to mid lumbar spine as well as optimum stabilization of the lumbar sacral area. Removable anterior and posterior panels allow for maximum patient compliance as healing progresses. Anterior and posterior panels are anatomically contoured for a better fit. Three straps provide ease of application. Non-tangle D-rings. #201

EOVC Lock

The new Easy Off Vacuum Compatible Lock from Coyote Design makes prosthesis removal easier than ever. The unique open/close lever eliminates the chance of the mechanism being stuck in a locked position. No more fussing with release buttons. Lock may be used with elevated vacuum of choice or by itself. #CD114

DuroFlex™ Low Profile Foot

The DuroFlex™ Low Profile foot for levels K2-K4 from American Prosthetic Components, Inc. features subtalar and midtarsal joints that are accurately simulated by the foot's combination of articulating ankle, vertical shock absorption and interchangeable keel and heel plugs. The metatarsal plugs create a natural toe break point allowing the foot to roll over the metatarsal heads rather than the tips of the toes. Each foot includes four interchangeable urethane keel and heel plugs and a titanium pyramid adapter. 4" build height. This foot comes with a 3 year warranty, and is rated to 500 lb. Complete foot system includes foot shell, Spectra sock and four keel and heel plugs (one each: 30, 50, 60 and 85 durometer). #DF

Breg Post-Op Shoe

Breg's newest Post-Op Shoe features a square toe that acts as a bumper to maximize forefoot and toe protection. The shoe has a firm rocker sole, easy-to-use forefoot strapping system and padded heel for optimal comfort. Additional features include a removable sole to accommodate accessories that off-load the plantar aspect of the foot after surgery or when wounds are present. Breg's recommended code: L3260. #1135x

University Collar

Cybertech's new University Cervical Collar is designed for multipurpose long term patient care, comfort and ease of adjustability. Universally sized with unique patent pending variable height positioning for fast and secure adjustment. Simply pull out the dual adjustment tabs, select height and re-engage. Code L0172 approved. #COLU-NG-U

ALPS Extreme Sleeve

The Extreme Sleeve's unique fabric provides limited vertical stretch while allowing the user excellent freedom of knee flexion. The Extreme Sleeve also features ALPS GripGel which seals with the skin to prevent "roll over" and ensures secure suspension without restricting circulation or causing shear forces. 3mm or 6mm thickness. #SFK
