Coyote® Air-Lock™

Not all locks are created equal

Our dual suspension airtight locking system has just gotten even better. Now it's easier to use, and still gives you the benefits of a "suction" lock.

Call us to find out how an airtight socket reduces milking and pistoning, while benefiting your patients and your bottom-line.

New one piece pin is easy to install and adjust.

New metal core makes this our strongest pin yet.

New pin geometry reduces play and noise.

Lock plate geometry reduces wear

Better quality lock housing

New inserts for the Alignable Connector replaces Fast Four Connector and allows for multiple offset options

Alignable Connector still offers offset alignment in a single lamination

Improved trouble-free anchor makes fabrication simpler and easier

CD103P8

CD103

CD103MDI

CD103AF

New pressure study results show the Air-Lock reduces pressure inside the socket vs. traditional pin systems. Ask us what that can mean when you bill for the Air-Lock.
