Our carbon fiber feet have you covered

Whatever your patients need, Otto Bock’s carbon fiber feet have you covered on every level.

Maybe it’s a sturdy foot with the super low clearance of our Lo Rider, or a high performing gem like the Aktion®. We also give you options for terrain conformance with our Journey, or silky smooth walking function in our Trios®. And now, our newest member of the family — the Aktion® DP — for high impact activities and torsional movement.

Get your patients onto an Otto Bock foot by calling 800.328.4058 (U.S.) or find us online at www.ottobockus.com.
