

Modus™ StepWatch™

Exclusively from SPS

Meet the VA's Prosthetic Utilization Metric Requirements

The Modus StepWatch is the **only** Prosthetic Utilization Monitoring system designed to meet the VA's highly specific metrics:

- Stance and swing time
- Cadence and cadence variability
- Step count
- Longitudinal, historical and objective analysis
- Peak performance index
- Functional level

To learn more about the new VA National Contract Template and the Modus StepWatch, sign up for the upcoming CODE webinars at: spsco.com/code

For a demonstration, quote and other inquiries, please email modus@spsco.com or contact your SPS Sales Manager. More information available on spsco.com/modus

More than distribution.
Partnership.
