

Building Blocks for Innovation.

Customized Solutions start here.

It's not just a pylon or any adapter.

These structural components meet the highest standards of design, construction and reliability. They are Otto Bock components.

HIGHER WEIGHT LIMITS. NEW PRICING

SPS is pleased to offer an expanded line of Otto Bock Structural Components. These high quality components are now offered with higher weight ratings and at an economic level never before realized for a product of this caliber. Call SPS Customer Service at 800.767.7776 x 3 for your complete catalog of the new expanded offering.

Sales and Distribution of Otto Bock products by SPS are limited to the US
