

PREMIERING the NEW i-LIMB™ PULSE and DYNAMIC FLEX Cover

The latest addition to the i-LIMB family is the new PULSE hand, so named due to its pulsing grip which provides increased grip strength.

The i-LIMB Pulse features:

- New aluminum chassis, knuckles and dislocators increase strength beyond earlier i-LIMB models
- Unique pulsing grip strength, variable and selectable per digit.
- Proportional speed - the stronger the input signal the faster the hand moves
- Two sizes - small and medium
- Two Colors - black and natural
- BioSim Professional software embedded in hand. Must be fully accredited to utilize.

The new Dynamic Flex Cover enlists high volume manufacturing processes to produce a lower cost cover with higher durability and excellent features.

- Silicone pigmentation process provides color accuracy
- Interior shape designed to optimize performance of the i-LIMB Hand
- Hand-painted highlights; Reinforced with Kevlar® and Lycra® for added durability
- 10 different color options to match patient's skin tone
