Finally,
an easy-to-apply
solution for trans-tibial
suspension.

In response to Prosthetists' requests, the Durasleeve EZ™ has been designed for clients with limited dexterity. More durable than many silicone sleeves, it is applied with the same ease, but it is more economical. Constructed of cream-colored Hypalon with a beige exterior, the sleeve is less likely to cause skin irritation.

- ◆ Most Appropriate for Functional Levels K1 and K2
- ◆ Air-tight Hypobaric Suction Environment for Virtually Fail-safe Suction
- ◆ Exclusive, Patented Friction-control Panel Between Socket & Sleeve to Minimize Wear
- ◆ Smoothly covers prosthesis making it less obtrusive beneath clothing
- ◆ Reinforced, Color-matched Blindstitching
- ◆ Back of Knee Contouring to Reduce Bunching and Increase Comfort
- ◆ Pre-flexed Knee with No Seams for Reduced Pressure on the Patella
- ◆ Cost-effective
